**Domain: 02 Safe & Sanitary Environment**

Rule: 5101:2-13-12 Safe Environment
Code: The program is required to provide an environment that protects the children in care from any items and conditions that may threaten their health, safety, and well-being.

Findings: Children in care shall be protected from any items and conditions which threaten their health, safety, and well being. During the inspection, it was determined that children were not protected from the following item or condition which may threaten their health, safety, or well being as noted in the following number 3, 22, & 23 below:

1. Surge protectors/outlets did not have childproof receptacle covers.
2. Open pull cords that are not closed loop.
3. Toys or other items small enough to be swallowed were present in the space where infants and/or toddlers were in care. (On the bottom shelf of an upper cupboard in the play room, open containers sitting on their sides were found to have small objects inside of them that could potentially be swallowed by a young child. Inside the cupboard and in the containers were staples, push pins, small plastic objects and a tiny plastic container of very small crafting gems. These items were easily accessible to older/taller children in care and accessible to young children if they were to move something close to the cabinetry and climb onto the counter, opening the cabinet door. Since the items are easily accessible to older/taller children in care, these items if not put away could easily be left in reach of young children.)
4. Electrical/extension cords attached to an object that would not likely result in a severe injury if pulled.
5. Stacked chairs.
6. Telephone cords.
7. Employee(s) purse(s).
8. Diaper bags.
9. Television not securely anchored.
10. Small or lightweight pieces of shelving units are not securely anchored to the wall.

12. Chipping or peeling paint.
13. An area rug did not have a nonskid backing.
14. An area rug presented a tripping hazard.
15. A floor surface was unsafe in that [ ].
16. No platform was provided for the sink or toilet.
17. The platform provided for the sink or toilet was not sturdy.
18. The platform provided for the sink or toilet posed a safety hazard in that [ ].
19. Emergency exits were blocked by the following furniture in that [ ].
20. A mercury thermometer was being used to take a child's temperature.
21. Methods of ventilation used did not provide protection from rodents, insects, or other hazards.
22. Other - Coffee pot on and in reach of children. (Provider had a coffee pot which was turned on sitting on a type of hutch. Under the coffee pot was a cloth runner that hung over the end of the hutch by approximately 5 or 6 inches. Beside the coffee pot was a side table and next to each side of the table were larger pieces of furniture - couch/loveseat. Children could potentially climb/crawl over the furniture, grab onto the cloth runner, pull it and send the coffee pot to the floor potentially burning a child. Depending on the height of the child, one could potentially reach up to the overhanging cloth runner and do the same.)
23. Other - Safety concern identified - An infant activity saucer was found stacked on top of of an approximately 3 and a half foot wooden frame of a playhouse upon arrival to the child care home. It was sitting on two boards that were located at the highest point of the playhouse. The saucer could potentially fall on a child if the

playhouse were to be bumped or run into. The saucer remained there for a portion of the inspection and then was removed by provider and set on the floor.
